

OSRAM LAMP PRODUCTS

Film Gear Repairs

At **F.G.R.** we carry a complete range of Osram Lamp Stock for the next time you blow a globe and need a replacement or are looking for a spare, we have you covered.

"Lighting for film and TV productions is much more than just light. It is tension, excitement, drama, joy and fascination. Creating moods that speak to the emotions is one of the main functions of lighting and makes it a central design element in film and TV productions."

The light must have excellent colour rendering, offer stable colour temperatures and perfect colour fidelity. The end result is first-class entertainment and better viewing figures."

www.osram.com.au

At **F.G.R.** we are proud to offer the **Osram** range of globes for film, TV, theatre, video applications and professional photograph.

Products for and by lighting professionals, **Osram** has been producing innovative lighting solutions for more than 100 years.

They offer lighting solutions that are characterized by robust and stable lamp design, outstanding colour rendering, high light output, optimum quality and complete safety.

Contact us today to order the globe you need.

Globe Range:

HMI Metal Halide Lamps

HMI lamps are metal halide lamps that are ideal for film and TV productions. Throughout their life they offer perfect colour rendering, a stable colour temperature of 6000 K and optimum photometric properties.

Available in wattages from 200 to 24,000W, single-ended or double-ended.

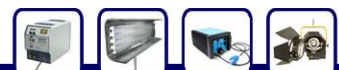

Halogen Lamps

OSRAM offers a wide range of halogen lamps for the best possible results in stage lighting. Lighting designers have a choice of different colour temperatures, outputs and lifespans. All halogen lamps from OSRAM feature robust construction and impressive durability.

Available in wattages from 300 to 20,000W
